
Preface

The 17th International Conference on Business Excellence (ICBE) with the inspirational title “Rethinking business: Sustainable leadership in a VUCA world”, took place this year in a hybrid format between 23-25 March 2023. The Conference was organized under the aegis of the Bucharest University of Economic Studies, Romania, by the Faculty of Business Administration through its UNESCO Department for Business Administration in partnership with the Faculty of Agrifood and Environmental Economics and Faculty of International Business and Economics, and in collaboration with the Society of Business Excellence.

The topic of this conference was strongly correlated with sustainable leadership in a VUCA (volatility, uncertainty, complexity and ambiguity) world, and the papers presented, the results and ideas exchanged were extremely useful and relevant in the present context of a global crisis, able to generate solutions and inputs for the real challenges we face today. So far, considering the previous editions, the International Conference on Business Excellence attracted the interest of more than 2000 international authors. The geographical distribution of the guest speakers, authors and members of the scientific committee covered the following countries: Bulgaria, China, Czech Republic, Denmark, Estonia, Finland, France, Germany, Hungary, Italy, Lithuania, Poland, Portugal, Romania, Serbia, Singapore, Slovakia, Spain, Sweden, Turkey, United Kingdom, Vietnam, Indonesia and the USA. The valuable input of the papers presented during these editions has been demonstrated by the Proceedings indexing in Google Scholar, SCOPUS and Web of Science – Clarivate Analytics. Also, many of the papers presented during these precedent editions constituted the basis for extended and more elaborate articles published in the main stream international journals.

The 17th Edition of the ICBE conference was organized in a hybrid format. During the first day of the conference, the participants enjoyed the contribution of two Guest Speakers for the Plenary Session: Senator Monica-Cristina Anisie, Chair of the Committee for Education of the Romanian Senate of the Chamber of Deputies of Romania and Deputy Ioan-Sabin Sărmaș, Chair of the Committee for Information and Communications Technology.

During the days of the conference, there were presented 200 papers with contributors from over 16 countries, within the following parallel sessions:
